\$125-175 depending on condition

- Thorough hand Wash
 - Hydrophobic ceramic spray wax on paint & glass
 - Clean wheels | Tires | Dress Tires
 - Wipedown Dash | Console | Panels
 - Spot treat small stains
 - Vacuum Interior
 - Glass Cleaned inside & out
- Takes 1-2 hours

INTERIOR

Hi, it's Jody with Clean Machine Auto Detail. Our service prices are based on the size and condition of the vehicle with a quality deep interior detail usually ranging from \$150-\$225, pricing goes up if vehicle is excessively dirty. We restore cloth upholstery and carpets with our system of shampoo and steam to clean them to the best possible condition. Leather seats get gently but thoroughly steam cleaned and conditioned with a quality cremé leather conditioner to moisturize, soften and protect your leather. Thorough steam cleaning and agitation is performed on all trim, steering wheel, console and doors with spot treatment on the headliner finishing with all interior glass being cleaned spot free. We aim to make your vehicle look and feel like new again.

We only require access to a power outlet and will bring extension cords. We accept

payment through Venmo, Cashapp or Cash. What is the best morning for us to come by?

SEAT/CARPET CLEANING

Seat/carpet cleaning as a standalone service, typically priced between \$80-120 depending on the condition.

We restore cloth upholstery and carpets/floor mats with our system of shampoo and steam to clean them to the best possible condition. Leather seats get gently and thoroughly steam-cleaned and conditioned with a quality cremé leather conditioner to moisturize, soften and protect your leather.

PET HAIR

Imbedded pet hair can be time intensive to

fully remove, as a result a small upcharge may be added.

HEADLIGHT RESTORATION

Hi, it's Jody with Clean Machine Auto Detail. Our headlight restoration service is only \$25 per lens. What sets us apart from our competition? We coat each lens with a long lasting, ultra glossy, true ceramic coating which will prevent subsequent yellowing over time.

Headlight restoration is only \$25 per lens and includes a long lasting true ceramic coating to prevent subsequent yellowing.

ENGINE BAY CLEANING

Do you always look under the hood before buying a car? I know I do! Give potential

buyers of your car confidence that their new purchase has been cared for for just \$35 when all that they see under the hood is a beautiful, well-maintained engine bay.

PAINT CORRECTION

We offer 2-step paint correction ranging from 60% - 90% scratch removal starting at just \$250. Scratch removal pricing will depend on the level of removal you're interested in and the condition of the paint, so I'd like to take a look at it and discuss options with you if possible. (Generally, if you can feel the scratch with your fingernail, then it's most likely too deep to be polished out and will require repair)

SiO₂ CERAMIC COATING

Ceramic Coatings offer the best paint protection and gloss available on the market today. Including our 1 or 2-step polish, a true SiO₂ coating is certainly the best thing you can do for the health and appearance of your vehicle.

Starting at just

1-Year \$300

3-year \$750

Features:

In addition to helping prevent dirt from sticking to the paint, which keeps the vehicle cleaner for longer between washes, SiO₂ coatings act as a 'Super-Wax', so you don't need to apply waxes throughout its lifetime. Our coating offers 3-5 years of protection from UV and sun, weather erosion and acid rain, tree gunk and bird

droppings all while providing more gloss than the finest waxes.

Process:

We first employ the foam cannon to suds up the vehicle in a thick biodegradable, neutral PH snow foam and gently hand wash the entire vehicle using the scratch-free two-bucket method. Then we'll implement both clay mitt mechanical decontamination and chemical rust removal treatments.

Next, using the industry 'gold standard' Rupes Bigfoot Dual-Action Polisher in conjunction with the appropriate pad/polish combination for your vehicle, we'll polish the paint to a buttery smooth, glossy finish to ensure the highest quality bond before the ceramic coating is hand applied to all exterior painted surfaces and wheel faces.

- Hand wash, wheels | tires | tire dressing
- Paint decontamination - Iron removal & clay
- 1-stage (1yr) or 2-stage (3yr) compound & polish 60-90% correction
- Window Sealant
- Black trim conditioner
- Polish exhaust tips
- 1 or 3 year Nasial SiO₂ coating hand applied to exterior paint and wheel faces.

*Guaranteed by Clean Machine!

CERAMIC COATING draft

Our Ceramic Coatings offer the highest

quality protection and greatest gloss available on the market starting at just \$499.

Features:

In addition to helping prevent dirt from sticking to the paint, which keeps the vehicle cleaner for longer between washes, SiO₂ coatings act as a 'Super-Wax', so you don't need to apply waxes throughout its lifetime. Our coating offers 3-5 years of protection from UV and sun, weather erosion and acid rain, tree gunk and bird droppings while providing more gloss than the finest waxes.

Process:

We first employ the foam cannon to suds up the vehicle in a thick biodegradable, neutral PH snow foam and gently hand wash the entire vehicle, then we'll implement both clay Bar and chemical rust removal / paint decontamination

treatments. Next, using the industry 'gold standard' Rupes Bigfoot Dual-Action Polisher in conjunction with the appropriate pad/polish combination for your vehicle, we will polish the paint to a buttery smooth, glossy finish before the ceramic coating is hand applied to all exterior painted surfaces and wheel faces.

Notes:

We highly encourage our ceramic coating clients to also select our 2-stage compound & polish to dramatically enhance the paint before sealing in the results as well as promote a quality bond with the coating.

Hiring a professional to ceramic coat your vehicle is the surefire way to take the best possible care of your vehicles paint that's currently available on the market!

Is there a good day or time to quickly

stop by to asses your vehicle for a coating service at no charge?

MOTO DETAIL

A Full Motorcycle Detail, priced at just \$160, consists of a thorough hand wash cleaning up the cracks and crevices of your bike and wheels then waxing all the paintwork. Conditioning of any leather, vinyl, rubber or plastic trim completes your detail.

**Add a machine polish for just \$75 to remove light swirls and renew the shine & luster of your paint!

OZONE TREATMENT

Cleaning the interior will likely help with any unwanted odors, but we also offer a

highly effective ozone gas treatment for just \$50. This aims to eliminate odor molecules and bacteria in the headliner, seats and carpets by travelling deep into the vents, cracks and crevices and attacking unwanted odors such as pets, smoke and mildew at their source. Would you like to go ahead and add this to your detail?

Thoroughly cleaning the interior is the first step in removing unwanted odors, but the next level of cleaning is our highly effective ozone gas treatment for just \$50. This aims to eliminate odors and bacteria such as pets, smoke, mold or mildew in the headliner, seats and carpets while traveling deep into the air vents, cracks and crevices to attack unwanted odors at their source. We place our O3 machine inside the vehicle and leave it running usually overnight then retrieve it in the morning.

The first stage is thoroughly cleaning with a special enzyme cleaner and the next is the use of an ozone generator. The ozone generator just sits inside the vehicle for a few hours generating o3 gas to neutralize odors and kill any remaining mold spores so no growth returns. This is all just a primer so you know what to expect, but I'll be able to better asses the situation when I arrive.

LEATHER PROTECTOR

Our Nano Leather Protector, priced at just \$50, will extend the life of your leather and protect the surface against chemicals, UV, paint transfer, wear and has extreme water and oil repellency. Should we go ahead and apply this upholstery protection while we're here today?

FABRIC PROTECTOR

Our fabric Nano Protector will extend the life of your fabric and protect the surface against chemicals, UV rays, paint transfer and fabric wear and has extreme water and oil repellency. It's highly recommended that we apply product just after cleaning for just \$50, should we go ahead and apply this protection?

GLASS PROTECTOR

Dramatically increase visibility and make your glass super easy to clean! Our high-tech Glassshield Nano glass treatment is priced at just \$50 and protects your windshield against stains and water damage far better traditional coatings and waxes with 2 YEARS of effective life.

Are you interested in adding this service to complete your detail today?

PLASTIC TRIM RESTORATION

Our black trim treatment permanently restores faded black plastic trim to a deep, dark black dramatically enhancing the look of your vehicle for just \$50-100 depending on the amount of plastic trim on the vehicle.

Most trim restore products last only a couple of weeks before their oil-based composition quickly wears away. This chemical treatment is designed to deeply penetrate the plastic for a long-lasting restoration bringing back a 'like-new' rich black color for at least a year, guaranteed!

FLEET VEHICLES

Basic Interior/exterior Cleaning -
Fleet Pricing

\$50-75 depending on condition
